

MARSYA AURELIA SYAHKIRA

Jakarta, Indonesia | marsya.aureliasyah@gmail.com | <https://marsyaaurl.vercel.app/>

Information Systems student with hands-on software development experience who has worked within Scrum/Agile teams across multiple real-world products, contributing to sprint ceremonies, backlog execution, and iterative delivery. Experienced in building responsive web apps with React.js and Next.js, and crafting user interfaces using Figma. Also familiar with backend development using Go and Node.js.

EDUCATION

UPN “Veteran” Jakarta
Major: Information Systems

Aug 2023 - Present
GPA: 3.95

- Relevant coursework: Web Programming, Database Systems, Human-Computer Interaction, Object Oriented Programming (Java), Software Testing and Quality Assurance.

WORK EXPERIENCES

Veterantech UPNVJ
Frontend Developer & Backend Developer

Jan 2025 - Present

- Contributed as a developer in a Scrum-based team managing work through Linear, participating in weekly stand-ups and sprint retrospectives while delivering features across three concurrent products.
- Developed 4+ features for an SDN 5 Joglo school management website using Next.js, centralizing access to school information for teachers and staff (<https://sdnjoglo05.sch.id/>).
- Developed 4+ features for SIERA, streamlining PATRIBERA participant tracking, information management, and certification workflows using React (<https://siera.veterantech.id/>).
- Developed 8+ Hono.js API endpoints across 5+ core features for Dignition, supporting learning management for 150+ KSM Veterantech users (<https://dignition.veterantech.id/>).

BPJS Ketenagakerjaan
Junior Software Developer (Internship)

Aug 2025 - Des 2025

- Migrated 7 email workflows from the Gateway to Notification Service using Go, improving JMO's microservices modularity through centralized email processing and Kafka queuing.
- Strengthened JHT claim security with 2-layer geofencing and IP Address Binding validation to detect suspicious claim activity.
- Developed 3 authentication endpoints for Device History, enabling users to track login devices, IP addresses, locations, and login/logout activity.
- Reduced unnecessary device token processing by implementing Redis-based validation with a 1-month update restriction.
- Worked within a Scrum-based development team, participating in daily stand-ups and tracking assigned work through Jira; supported User Acceptance Testing (UAT) cycles ahead of release and esigned 4+ UI/UX features for JMO 5.0

PT. Skyworth Industry Indonesia
Programmer (Freelance)

Feb 2026 - May 2026

- Developed 2 C#/.NET applications for an automated HIPOT testing system, automating test parameter configuration, ACW/IR testing, PASS/FAIL evaluation, and digital result logging to replace a manual 45-second/unit testing process.

SELECTED PROJECTS

Sahnam — Urban-Rural Agricultural Investment Website
Fullstack Developer

Aug 2025

- Built the Sahnam web platform, including the investment catalog, investor dashboard, and authentication using a modern frontend and Supabase backend.
- Integrated AI insights for personalized plant investment recommendations.

- Developed a seamless and accessible tourism experience through personalized recommendations, gamified itineraries, and a 360° virtual tour feature. It aims to make exploring Indonesian destinations easier, more inclusive, and hassle-free for all users using Figma
- Won 1st Place in VWO UI 2025 UI/UX Competition

ORGANIZATION EXPERIENCES

Veterantech UPNVJ

Jan 2025 - Jan 2026

Graphic Designer & Product Designer

- Collaborated in designing social media (eg. instagram) content using Figma
- Collaborated in making UI Designs using Figma for a design system website of Android UPNVJ

Veterantech UPNVJ

May 2025

UI/UX Design Mentor

- Mentored high school students in UI/UX design for web applications, teaching interface design principles and assisting with the code implementation of their designs into functional websites.

ACHIEVEMENT

- | | |
|--|----------|
| • Scrum Fundamental Certification- Scrumstudy | Jul 2026 |
| • 1st Place – UI/UX Design Competition VWO, Universitas Indonesia | Oct 2025 |
| • 3rd Place – UI/UX Design Competition MAGE X, ITS | Nov 2024 |
| • Finalist - Web Development SECOMP, Telkom University | Aug 2025 |
| • Top 6 - Web Development Silogy Expo Education Fair, UNSIKA | Jul 2025 |

SKILLS

- Project Management: Agile, Scrum, Jira, Linear, UAT Supporting
- Front-End: React.js, Next.js, Typescript, JavaScript, Tailwind
- Back-End: Node.js, Hono.js, Go, Go Fiber
- Database: SQL, PostgreSQL, Supabase, Oracle
- UI/UX Design: Figma
